JOBE 

GETS YOU ON THE WATER

Jobs are for everyone. We are a community, a global movement, a family of real people, who are discovering the beauty of watersports.

We create unforgettable **#jobmoments** for everyone since 1974. No matter who you are, no matter your age or size, no matter your background. When you want to get on the water, you will fit in our family. We develop our products with the greatest care and highest quality materials, every day again and again.

This is what **'gets you on the water'** means to us.

Join our family and share in our love for watersports.

2025 PRODUCT INNOVATIONS

This is where innovation and our passion for adventure come together. This year, we've introduced entirely new ranges, upgraded many of your favorite products and added stunning new colorways. Our latest advancements focus on enhancing performance, comfort, and high-end quality, ensuring you get the most out of your water sports experience. Explore the future of water sports with Jobe!

P. 44 INFINITY / INFINITY LITE

Experience the improved Infinity Series and Lite platforms, now easier to fold and install with optimized deckpads. They all perfectly match with all leisure items for seamless enjoyment.

P. 55 KICKBOARD

Introducing our easy-to-use electric bodyboard, perfect for assisting while swimming and snorkeling – making your aquatic adventures effortless and fun.

P. 210 DRY BAG COLLECTION

Discover our high-end dry bag collection, designed to click and connect effortlessly to our SUPs and kayaks – blending fashion with functionality and perfect for both water and land adventures!

P. 83 AERO PREMIUM

Experience the sleek redesign of our popular Aero Premium range, now featuring fresh new colorways to be guaranteed to paddle in style.

P. 79 AERO LITE

Get ready to enjoy great performance at an unbeatable price with Jobe's most affordable SUP line ever, the Aero Lite SUPs. Complete with a full package for direct use.

P. 62 KAYAK RANGE

Check out the vibrant new colorways for our popular Jobe Croft and Gama kayaks, adding more excitement to your paddling adventures.

MIX AND MATCH

Unleash your creativity with Jobe Sports' mix and match principle. Our innovative products can be seamlessly paired with each other, allowing you to craft the ultimate look for your water adventures. Create your perfect set and start making waves on the water!

TOWABLES

A FUNTUBE FOR EVERYONE

Jobe has been making the best inflatable products since 1974, and no matter where you are in the world, there's a big chance you've seen a towable of ours somewhere along the coastline. With our knowledge and experience, we have been making summers awesome since the day we started and continue to do so!

TOWABLE EXCELLENCE

Experience the perfect blend of excitement and luxury with our premium Funtubes. Glide effortlessly across the waves, sharing unforgettable moments with friends and family. Crafted with the finest materials, our Funtubes promise unparalleled stability, performance, and fun on the water. With a wide assortment of sizes, colors, and riding styles, we have the perfect towable for everyone. Always provided with 3 years warranty.

EXCEPTIONAL SHAPES

A deck is just a deck right? Wrong! A Jobe deck is something different, something which makes us stand out. Instead of using industry standard mold which is used by everyone, we made our own to make something which just hits different and makes the most out of the original shape.

So shapes like our Scout, Swath, Aistream and many others have been tweaked to perfection! With edgy lines, unique shapes and great design, you have something which will have all the heads turning when you're towing!

DISCOVER WHY THE WORLD LOVES JOBE TOWABLES

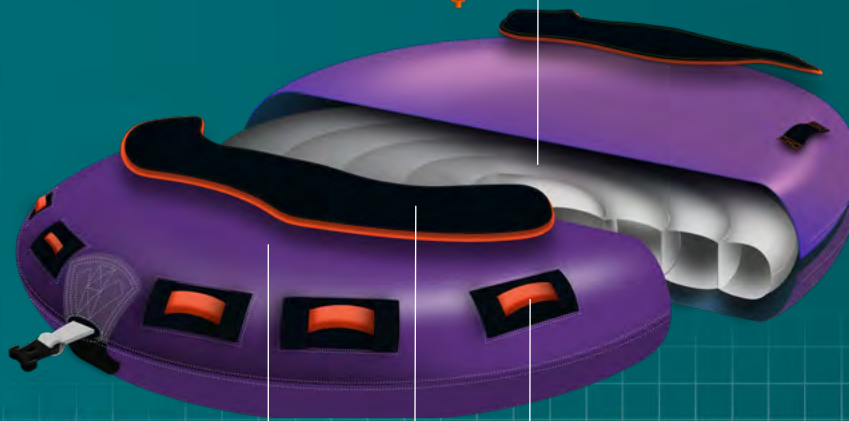

Experts say it's the combination of our high production standards and the use of high quality materials. We say it is because our towables are thoroughly tested and undergo multiple quality checks. Therefore we can guarantee the quality of our products with a 3 year warranty on every towable!

BOSTON VALVE

for quick inflation and deflation.

PVC INNER

Gauges vary from 16G (kids tubes), 24G (1|2|3 person tube), 30G (2|3|4 person tube) and 36G for commercial products.

NYLON COVER

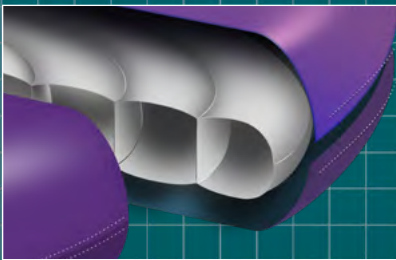

Deniers vary from 420D for a 1|2 person tube, 840D for a 2|3 person tube and 1680D for commercial used products.

HANDLES WITH NEOPRENE KNUCKLE GUARDS

for a comfortable ride.

NEOPRENE DECK PADS

for a comfortable ride glued and stitched to the cover.

EXTRA SAFETY

Jobe towable tubes have extra durability and are extra safe because they consist of multiple air chambers. The combination with the Boston valve, which ensures air can only enter but not escape through the valve, makes Jobe towables a watersporter's favorite.

KEY FEATURES

- **BIGGER SIZES** For stability on the water
- **BOSTON VALVE** Designed to resist high pressure
- **DOUBLE-STITCHED NYLON** for extra durability.
- **COMFORTABLE HANDLES** with neoprene knuckle guards.
- **QUICK ROPE CONNECTOR**
- **NEOPRENE DECK PADS** for comfort and prevention of damage on the skin.
- **3 YEAR WARRANTY**

FIND THE PERFECT TOWABLE FOR ALL YOUR WATERSPORTS NEEDS

KAYAKS

EASY GOING

CROFT

Recreational, compact and durable. The Croft 340 is the perfect entry to your world of kayaking - For the long term! Fully provided with all the necessary accessories. And just as our full kayak range, the Croft is both usable for going solo or together.

PERFECT ALLROUNDER

GAMA

The Gama 365 might look similar to our Croft 340, but that's not the case! We've used a different fabric and the bottom air chamber features drop-stitching, resulting in a super stiff and fast kayak. With that being said, the Gama is a kayak that is also well suited to touring activities.

TOURING AT ITS BEST

TASMAN

This is not your average kayak. This one is for the true explorers, who like to keep on exploring for mile after mile! From the remote Scandinavian waters to the coastline of British-Columbia... The Tasman eats these places for breakfast!

ADJUSTABLE SEATS

Put two seats in the front and back for a duo ride or go solo with one seat in the middle! Easy to fix on the velcro strap.

BUNGEE STORAGE CORD

Take your essentials with you on your kayak trip by securing them with the elastic bungee cord.

INFLATABLE

COMPACT

All Jobe kayaks are inflatable! The deflated kayak can easily be stored with the paddles, seats and pump all in one bag.

STAND UP PADDLING

WE EXPLORE THE WORLD

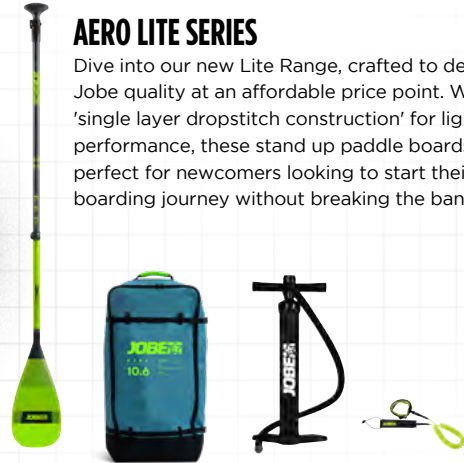

Jobe has been leading the industry with its inflatable SUP range. After all, we've been making inflatable products since 1974! But nowadays, we've set up our range to offer something for everyone. Starting with a price-friendly Lite range for beginners to our our Premium series which caters to all needs. Looking for the best package possible? Our Elite Series uses the most high-end products possible.

There's something for everyone in the Jobe SUP range.

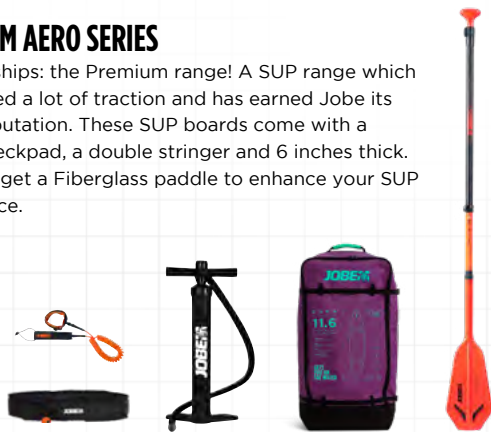

AERO LITE SERIES

Dive into our new Lite Range, crafted to deliver Jobe quality at an affordable price point. With 'single layer dropstitch construction' for lightweight performance, these stand up paddle boards are perfect for newcomers looking to start their paddle-boarding journey without breaking the bank.

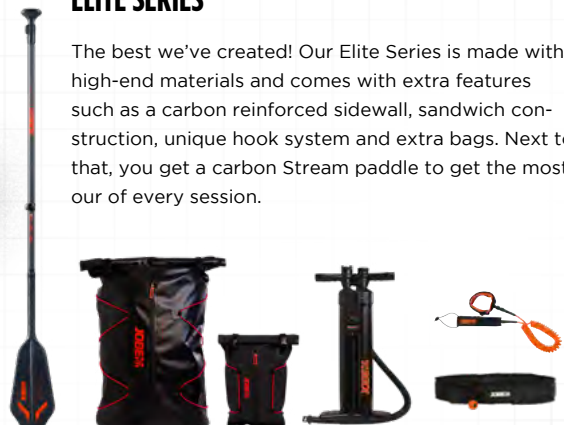

PREMIUM AERO SERIES

Our flagships: the Premium range! A SUP range which has gained a lot of traction and has earned Jobe its great reputation. These SUP boards come with a longer deckpad, a double stringer and 6 inches thick. Plus you get a Fiberglass paddle to enhance your SUP experience.

ELITE SERIES

The best we've created! Our Elite Series is made with high-end materials and comes with extra features such as a carbon reinforced sidewall, sandwich construction, unique hook system and extra bags. Next to that, you get a carbon Stream paddle to get the most out of every session.

★ ★ ★ ★ ★

5 YEAR WARRANTY ON ALL JOBE SUP BOARDS

We've always stood by the quality of our inflatable products, offering a 3-year warranty. Since 2023, we've extended this to 5 years for any manufacturing issues with our inflatable SUP boards. Enjoy a full 5-year warranty on your new inflatable stand-up paddle board, ensuring peace of mind and lasting enjoyment.

LIGHTER BOARD, LIGHTER PRICE

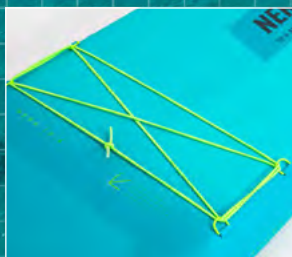

Explore the Lite Range, where innovation meets affordability without compromise. Featuring 'single layer dropstitch construction', these SUPs are crafted to be exceptionally lightweight, allowing us to lower costs while maintaining uncompromised quality and performance. Ideal for those who seek both affordability and excellence in paddleboarding.

SINGLE LAYER DROPSTITCH

EVERYTHING YOU NEED

This range is tailored for beginners seeking exceptional quality. With an upgraded 6-inch thickness for improved stability and comfort, these boards still boast top-notch features synonymous with our brand—such as an EVA deckpad, bungee storage cord, and all essential accessories—for a complete and enjoyable paddleboarding experience.

FORM FOLLOWS FUNCTION

01 DECKPAD

A large EVA deckpad gives you a comfortable surface to stand on all day long, while providing you with plenty of grip.

02 BUNGEE STORAGE CORD

Our storage cord is integrated in the design, creating more room to store your gear when you're out on the water.

EZ LOCK FIN

The most easy to use and secure fin ever! Easily click this fin in and secure it by pressing down the lock, it's as easy as can be.

03 HEAT BONDED TECH

Our heat bonded technology fuses layers of the board together using heat, creating a durable, airtight seal that enhances the board's longevity and performance!

PREMIUM QUALITY

When you buy a stand up paddle board from our Premium Aero range, you can expect something extra!

The Premium range comes with extra features which are unique to this collection, making it the best of the best!

WIDER AND LONGER DECKPAD

The Premium Aero Range comes with an extra wide deckpad, this gives you more freedom of movement on the SUP and gives you added room to take someone along for the ride.

The center part is covered with soft EVA foam for a comfortable ride and the back of our deckpad has diamond pattern for added grip to initiate fast turning.

04 RAIL TAPE

This raiitape is placed over the seams of the board creating a more durable board which guarantees the best airtightness.

06 DOUBLE STRINGER

A stringer on the top and bottom of the board for extra stiffness and strength, this also supports the rocker of the board making sure the SUP keeps its shape.

05 X-STITCHING

X stitching involves cross-stitching threads through the board's layers, creating a tight and secure bond that enhances the board's structural integrity.

40% CARBON STREAM PADDLE

Our Premium SUP boards come with a lighter, stiffer and better paddle; a fiberglass paddle with 40% carbon elements. It's three-piece adjustable making it easy to carry with you or store in a (SUP)bag. Our anti twist system on the paddle puts an end to additional forces by locking your adjustable system.

DOUBLE STRINGER

Jobe was ahead of the game with 1 stringer on the board but now we are adding another stringer on the bottom of the SUP. This makes for more stiffness and keeps a better rocker shape in the board. The double stringers are placed for extra stiffness and more control, this also supports the rocker of the board making sure the SUP keeps its shape.

THE BEST OF THE BEST, FOR THOSE WHO WANT NOTHING LESS.

We have introduced the Elite Series for a select group of stand up paddlers who want nothing but the best. Jobe already offered one of the best boards in the world, and now we offer also the best packages in the world. Packed with the absolute best accessories of our range. Even some of the Elite accessories are completely new and especially designed for this range. "There's always room for improvement" does simply not apply for the Elite Series. We have gone all-in here!

ELITE INNOVATIONS

We proudly introduce the all new Elite series to you. In this special range you will find the crème de la crème of stand up paddle boarding. This range is called into life to demand the stand up paddler who wants the best SUP experience possible.

HOOK SYSTEM

Adapt your board to the next tour you're going to make. Attach the cargo net or a drybag to your board. Whether you need big storage or just your bottle of water, the hook system adapts easily.

SANDWICH RAILTAPE

The Elite series comes with a sandwich railtape for less weight and more response. But we didn't stop there, we also added an additional railtape over the bottom seam. This prevents any leakage of air, giving you the most durable SUP out there.

UPGRADED PACKAGE

A stand up paddle package of the Elite series only consists of the best products possible. We already had one of the best boards in the world, and now we offer you the best package in the world. If you want the absolute best stand up paddle experience: Go elite.

CHANNELS

An innovative channel system which makes for a straighter line forward and gives you better traction on the water.

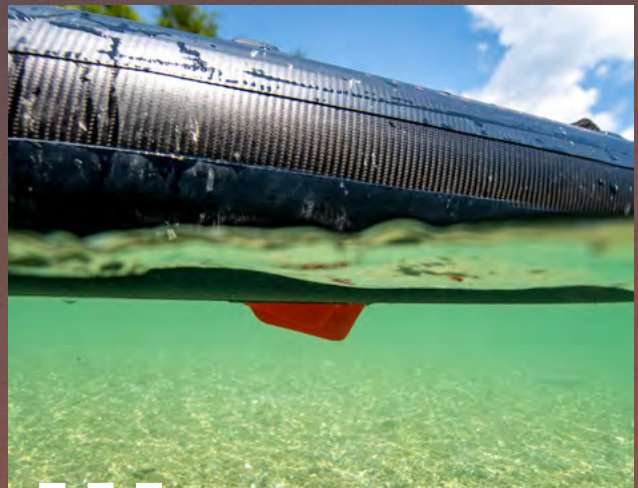

CUSTOM DECKPAD

A total new EVA deckpad pattern that is exclusive to the Elite series.

E-DUNA DRIVE

A powerful electric motor that both inflates your boards and sails you through the water. Provides up to 3 hours of running time and controllable on 3 different speed levels.

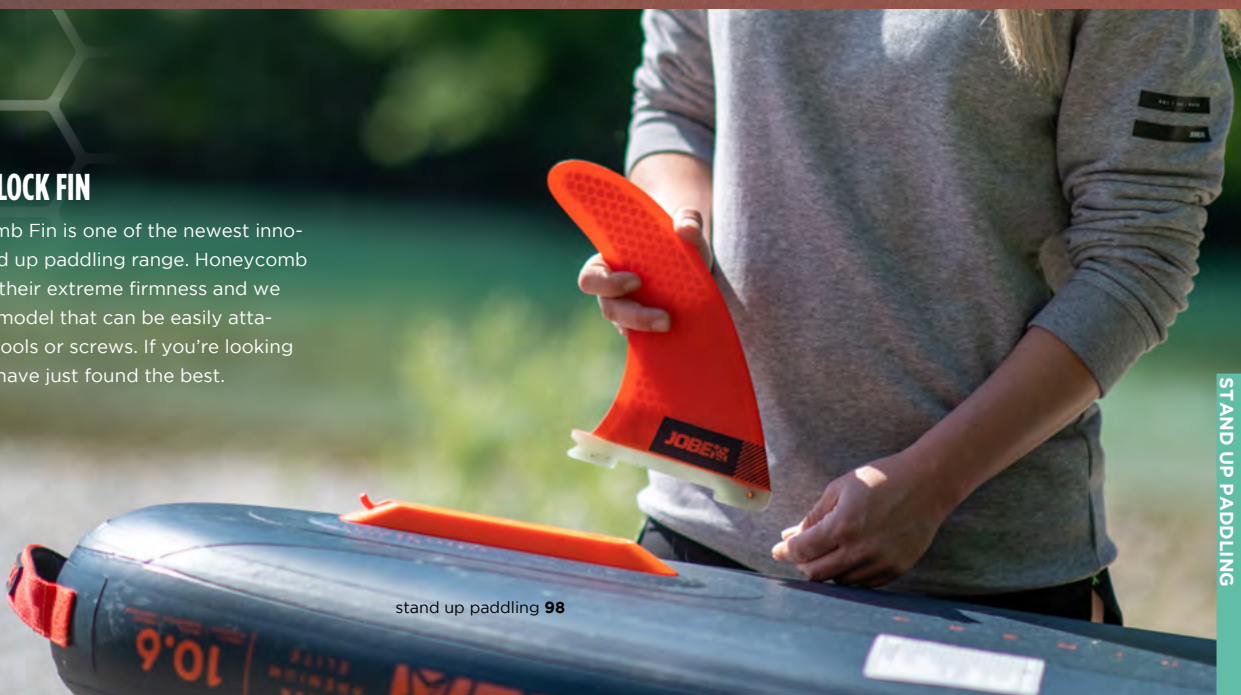

CARBON RAIL

Provides extra stiffness, more durability and of course a high-end finish that is a lust for the eye.

HONEYCOMB EZ LOCK FIN

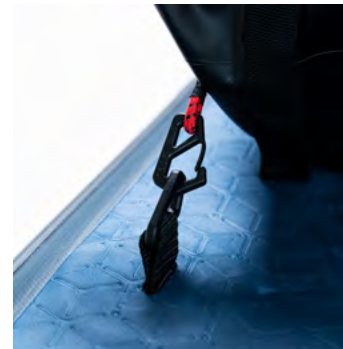

The new Honeycomb Fin is one of the newest innovations in our stand up paddling range. Honeycomb fins are known for their extreme firmness and we have developed a model that can be easily attached without any tools or screws. If you're looking for the best... You have just found the best.

E-DUNA DRIVE & REMOTE

INSPIRED BY NATURE, PERFECTED BY HUMAN

The new Stream paddle owes its origin to one of nature's best paddlers: Ducks! Millions of years of evolution have formed a shape that creates the best motion with as less effort as possible. We have processed that unique shape in our all new paddle: **THE STREAM.**

Blade inspired By A Duck

ANATOMY BREAKDOWN

As we said, this paddle is inspired by duck feet and it shows in its design. A duck feet has 3 long toes with the web in between and you can see the resemblance in our Stream Paddle! Three ribs, one in the middle and two on the sides, act as the bones and reinforce the blade. The rest of the blades, functions as the webbing in between the toes which push you forward when paddling. This structure is tried and tested through evolution itself, so we can tell you: this works great!

THAT LITTLE EXTRA

The Stream has a different tip on the paddle and this is done with good reason. When you fully extend your arm, it's harder to pull the paddle towards you. But the closer your arm gets to your body, the more strength you can use. A more narrow tip on the paddle means less surface area which results in less pressure on your arms. But as you pull the paddle closer to your body and the blade goes deeper into the water, more surface area and thus more resistance comes onto the blade. This makes for smoother and more efficient paddling, costing less energy which will help you cover any distance.

VESTS

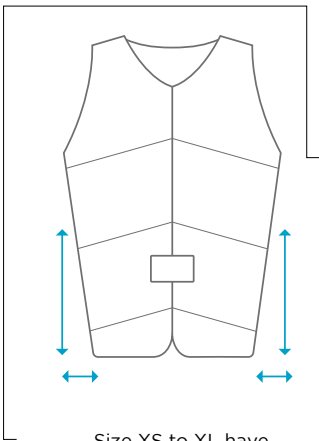

JOBE'S PERFECT FIT

Jobe watersports life vests and buoyancy aid vests have a better fit than ever: Jobe's Perfect Fit. The fit of every Jobe vest is based on scientific research (conducted by TNO, 2015), where people of all sizes and ages were measured and weighted to determine the optimal size for every body type. We took these measures to extend our size range. Every vest is then tested by an official certified institution to make sure it meets the highest quality, comfort and safety standards.

A size for every body!

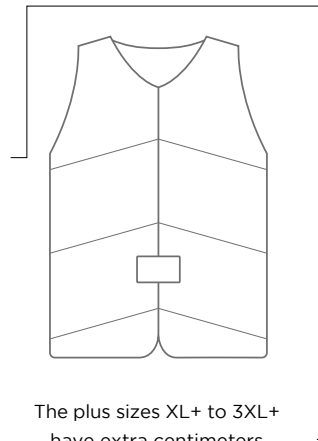

ATHLETE

Size XS to XL have Athlete sizing

MEN PLUS SIZE

Whether you have an athlete or leisure kind of body type; there's always a vest with the right fit for every man and every body out there. Our + range gives just a bit more room so everyone can find their perfect fit!

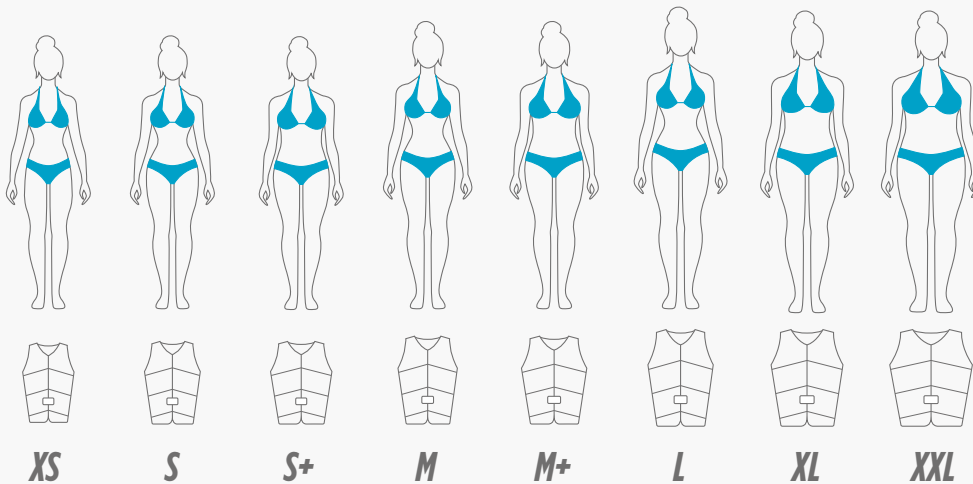

The plus sizes XL+ to 3XL+ have extra centimeters added around the waist to create a perfect leisure fit

LEISURE

WOMEN PLUS SIZE

Plus sizes for Women life vests have a different meaning than the men life vests. To create a perfect fit for our female customer we have minimized the grading between the women vests sizing, this resulted into the plus sizes in the women range to ensure you find your perfectly tailored vest.

EXTRA SIZES

NEOPRENE MEN

A FAVORITE AMONG WATERSPORTS ENTHUSIASTS

The Neoprene Men vest is a fusion between our old Neoprene vest and Segmented vest. By combining these, we made a new vest, which offers more freedom of movement, a better fit and better performance. This makes our neoprene vest a real “bang for your buck” product, which you won’t find anywhere else!

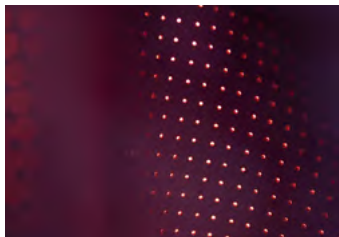

MIX & MATCH

We’ve made sure that all of our vests make a perfect match with different types of wetsuits. So you can start mix and matching to your own liking. Moreover, our vests match with our hardgoods: from towables to wakeboards find your perfect match.

MATERIALS

NEOPRENE FABRIC

- High stretch
- Soft to the skin
- Flexible fabric for complete freedom of movement

PVC FOAM

- Durable closed cell foam
- Comfortable & soft

NYLON FABRIC

- Lightweight material
- Quick dry

EPE FOAM

- Lightweight
- Low water absorption

NEOPRENE WOMEN

Our Neoprene Women Vest has a fit which is designed for the best fit for the ladies.

We have extended these vests with 3 centimeters in length for better floating capabilities. This gives you more vest and a better fit for a great price!

A FRAGMENT OF WHAT TO EXPECT

The Fragment is our top vest made with care for those who demand the best!

But what makes this vest so special? We'll give you a glimpse of the unique features of this vest but trust us: Once you've tried one, you won't want anything else!

ATHLETIC PERFORMANCE

Top performance is what it's all about! We wanted to create a vest which has the best performance, but which also keep safety in mind. Strategically placed panels make for optimal freedom of movement but ensure floatation. Where others sacrifice safety for performance, we went above and beyond to ensure the best of both!

AESTHETICS LIKE NO OTHER

Something which no one has seen before, the Fragment vests come with lasercut neoprene panels, creating a perforated look. A unique visual feature which you won't see anywhere else, and which just

looks insane. Added to that, we see that water can drain from here as well, shedding weight as well! Form Follows Function is the name of the game!

SIMPLY THE BEST!

From its focus on safety, to its freedom of movement, to the "Perfect Fit" technology, the Fragment has it all! But it's also made from the best neoprene, which is our Supreme Stretch Neoprene. A vest with such a great panel placement, combined with the stretchiness of our neoprene makes for a vest which is simply the best!

WETSUITS

FOR ALL WATERSPORTS

With a Jobe wetsuit you can enjoy watersports all year long! The thickness, length, construction and the thermo lining of the suit determines the warmth of a wetsuit. Jobe wetsuits range from 1,5 to 4/3 mm neoprene, so you can hit the water with any temperature.

All Jobe wetsuits have ergonomic panels for optimal freedom of movement and comfort. Perfect for all kind of watersports! On top of that, the collection has fresh colors with bright details that matches with the rest of the Jobe collection.

MIX AND FIND YOUR PERFECT MATCH!

D30 SHINPROTECTOR

When you're out on a jet ski, you need a wetsuit to protect you - aside from keeping you warm. With the innovative panels in our Detroit fullsuit 3/2 mm and Toronto Long John 2 mm you get that extra protection with help of the durable D30 material.

Two separated panels in the knee and shin area have a wide protection range and great comfortability. A strong D30 panel protects the knee and the panel for the shin area is made of D30 LITE and covers a larger surface. D30 LITE is a range of soft, lightweight foams that offer enhanced cushioning and long-term comfort.

LIMESTONE

At Jobe, we use a Limestone based neoprene, which comes with lots of benefits. It's light, warm, it soaks up less water, has more flex and limestone has better isolation qualities. This offers great freedom of movement for the ultimate watersports experience. On top of that this fabric is more resistant to tearing than traditional wetsuits, so it makes them more durable!

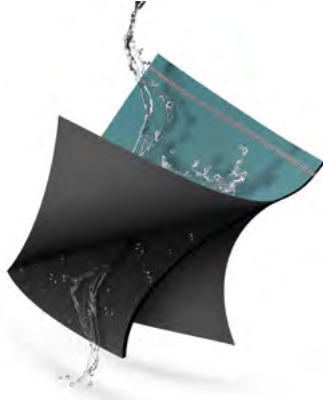

WHAT WE'RE MADE OF

We demand only the best neoprene for our wetsuits. Neoprene is the most important determinant of stretch and because we believe you should comfortably perform water sports, Jobe wetsuits all have a great level of stretch. Enjoy the comfort and flexibility of how we incorporate stretch in our wetsuits.

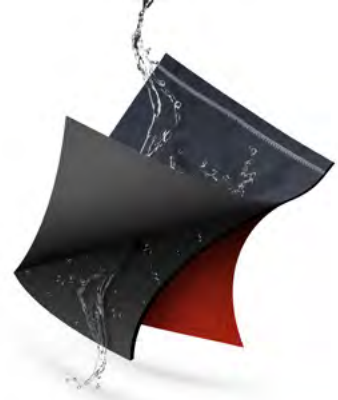

REGULAR STRETCH

1. Polyester top layer
2. Cr foam for a comfortable feeling
3. Polyester bottom layer

FULL STRETCH

1. Polyester top layer for excellent stretch, a smooth feeling and a soft touch

FILLED WITH FEATURES & TECHNIQUES

A wetsuit protects your body and keeps your body warm in the water. Jobe wetsuits are produced from the highest quality neoprene. As a result, the overall level of stretch is much higher than normally used. On top of that all wetsuits are developed with specific ergonomic panels for optimal freedom of movement and comfort in each design. But it doesn't stop there; we also use drainage thermo inner lining in our steamers to keep you optimally warm. This technique quickly drains the cold water and keeps your body heat. Also we have strengthened our seams to ensure durability use.

Discover your perfect Jobe wetsuit that matches the level of stretch and warmth you need!

CHOOSE YOUR WETSUIT

Choosing your wetsuits is dependent on the water temperature and the type of watersports you want to perform. Wakeboarding or slalom skiing demands a higher level of stretch than laying on a tube. Therefore, you want to look for the level of stretch in a wetsuit. Besides that, a chest zip gives more flexibility to the wetsuit, while a back zip means the wetsuit is easier to put on. Knowing the temperature of the water is very important. Colder temperatures require more high end wetsuits like our steamers that use a lot of techniques to keep you warm. Enjoying a tubing day in the summer? Then look for a shorty wetsuit instead.

3/2MM

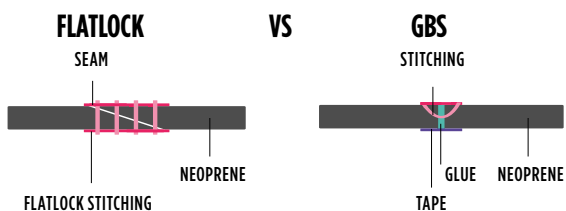

4/3MM

WATER TEMPERATURE

STITCHING TECHNIQUES

The stitching of the seams is an important determinant of the warmth and flexibility of the wetsuit. Flatlock stitching is most common and it is a super durable technique. Flatlock stitching perforates the neoprene which means water might still enter the wetsuit. Therefore, we use the GBS technique in our high end wetsuits to give extra flexibility and that are meant to keep you warm. GBS stands for glued and blind stitched. The neoprene is first glued and afterwards it's stitched. The stitching is only down half through so it doesn't perforates the neoprene. Water does not enter the wetsuit that way and that is what you want in cold water temperatures.

MULTI POSITION BOARDS

MEET THE JOBE MULTI POSITION BOARDS

STIMMEL

OMNIA

CHIPPER

STIMMEL VS. OMNIA

The Stimmel is our classic multi position board with removable surf fins. Its big brother, the Omnia, is produced with the same techniques as our wakeboard collection and has therefore similar great features. The Omnia is lighter, thinner, contains removable footstraps and the board is more playful yet equally strong!

UNIQUE TOW POINTS AND INTEGRATED SIDE HANDLES

Our unique tow points makes the start so easy! Simply put the handle in the tow point, grab the side handles and the boat pulls you out of the water. Our unique tow points come in 2 different designs. One of the Stimmel & Omnia and one specially for the Chipper!

ROTMOLDED VS. COMPRESSION MOLDED

Our Stimmel & Chipper are roto molded which makes both boards super strong and durable. Our Omnia board is compression molded which makes it strong, thin and light resulting in a playful and responsive board.

DISCOVER THE DIFFERENT WATERSPORTS POSITIONS OF THE OMNIA & STIMMEL & CHIPPER

Turn, twist and jump: everything's possible with the Jobe multi position boards. You can use it to water ski, kneeboard, lay down and ride like a towable, wakeboard, wakesurf, sit on it and so much more. Find your position and go play!

KNEEBOARDS

CHOOSE YOUR KNEEBOARD

SLASH

The Slash is an easy to ride board with a fast learning curve. This board is fast, super playful and its winged outline is great for carving!

SENTRY

The shape and base of the Sentry has a great forgiving feel, while the twin tip design allows you to play around.

PROPHECY

Your entry way to a wide range of tricks! The Prophecy is a light and stable board that is playful and perfect for tricks.

SLASH

The Slash features an innovative winged outline that creates one of the most playful kneeboards that we ever had! This special shape gains more speed and effortlessly carves you through the water. It's slashing time!

EASY START

Both the Slash and Sentry feature an integrated tow hook which make an easy start possible.

ROTO MOLDED VS COMPRESSION MOLDED

The Slash and Sentry boards have a rotomolded foam injection build, which gives the boards extra buoyancy and durability.

Our Prophecy kneeboard is produced with the same techniques as our wakeboard collection and has therefore similar great features. The high-pressure core is covered in Tri-tech fiberglass to produce a light and thin board ensuring a strong product with the best response and playfulness.

SLASH

K N E E B O A R D

The Slash has proven to be an innovator which has been loved by all! Where others have a factory standard shape, we decided to take a different route and implement our Form Follows Function philosophy in our design.

EASY START TOW HOOK

This board comes equipped with a tow hook for an easy start. Kneeboarding made easy for beginners and young ones as this tow hook makes it possible to connect your handle and makes starting from the water as easy as can be.

WINGED OUTLINE

The Slash features an innovative winged outline that creates one of the most playful kneeboards that we ever had! This special shape gains more speed and effortlessly carves you through the water.

EVA DECKPAD

An ergonomically shaped EVA deckpad offers plenty of dampening for a ride on the Slash. But more importantly, this makes for a soft and extremely comfortable ride which never gets old.

CHANNELS

This board features a channel setup which has been tried and tested to get the most out of the unique winged outline. A channel setup which is combined with a deep center channel for stability and deeper channels towards the tail make for plenty of grip. But because we kept the molded fins out, you do get a board which has a playful touch making it possible to twist, turn and slash around.

WATERSKI

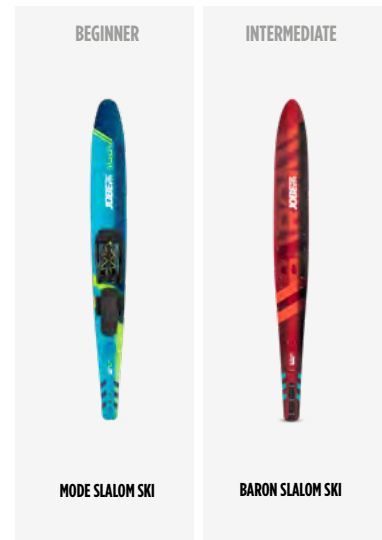

ORIGIN OF JOBE

Back in 1974, pro water-skier Jeff Jobe founded the brand and started developing waterskis with the belief that we can do better, be better and make better products. Fast forward to 2025 and we still believe this to be true and strive to innovate and make the best products on the market.

COMBO SKIS

SLALOM SKIS

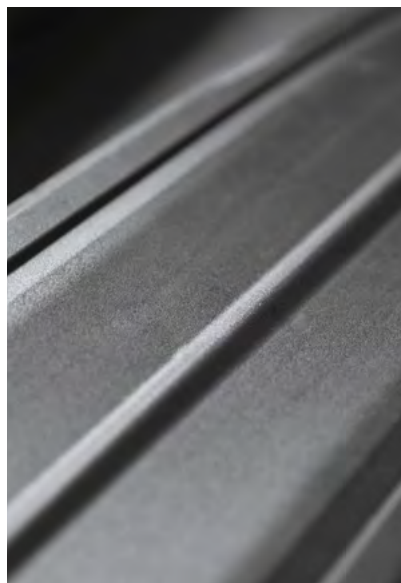

TOE STRAP

The extra molded overlay adds more durability which is useful when you let go of your combo ski to continue slalom skiing.

OUTLINES

Our skis come with a tapered outline, ensuring the best time out on the water! A wide nose which runs narrow towards the tail of the ski gives the ski its floating capabilities and make sure the nose of your ski doesn't dive underwater. Add some extra rocker in the nose of your ski and you've got yourself one of the best pieces of watersports gear out there.

TECHNOLOGY

Our range of skis come with the best tech to ensure the best ride. The outline might give the skis their floatation but the tech on the inside makes for the dampening and response. A rim injection combined with metal rods for better response, bright fins for visibility, V-bottom for better traction and that's just the tip of the iceberg!

WAKEBOARDS

IT'S ALL ABOUT THE EXPERIENCE!

It's not about the highest jumps, the most spins or double flips... Wakeboarding is about the good times! We're longing for those summer days on the boat with friends. The days where we ride out, push each other and laugh about our fails and cheer when we land something new. It's all about the experience!

WAKEBOARD CONSTRUCTION

Different constructions mean different riding experiences. We made sure there's a board for everyone, check out which techniques suit your needs!

HIGH-PRESS CORE

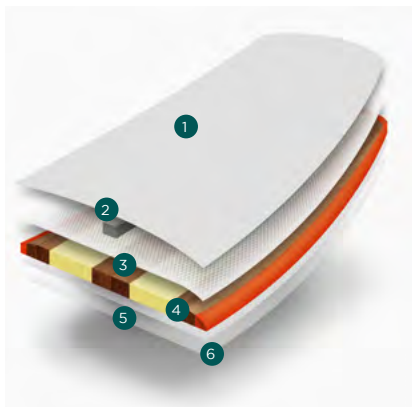

FUNCTIONAL AND RELIABLE

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **High-press core**
5. Fiberglass lay-up
6. Base

HIGH-PRESS CORE

Foam is a lightweight material which absorbs the blows from a landing and makes for higher jumps due to the reduced weight.

HYBRID CORE

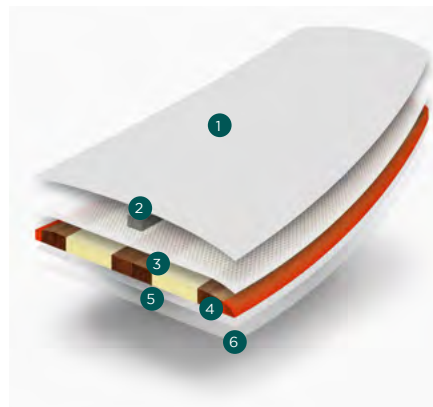

THE ULTIMATE MATCH OF FLEX AND STRENGTH

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **Hybrid core of wood and PU foam**
5. Fiberglass lay-up
6. Base

HYBRID CORE

A combination of PU foam and wood core for unmatched performance. This makes for a lightweight board with a nice soft flex, the best of both worlds!

GLIDE CORE

STRONG, DURABLE AND FLEXIBLE

1. Topsheet
2. Stringer
3. Fiberglass lay-up
4. **Glide core of wood and PVC**
5. Fiberglass lay-up
6. Base

GLIDE CORE

The Glide Core is our most high-end core. A mix of wood with PVC make for a stiff board while keeping it extremely light. If you're looking for the best, this is it.

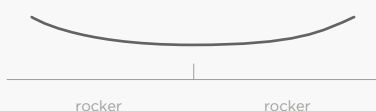

ROCKERS

THREE STAGE

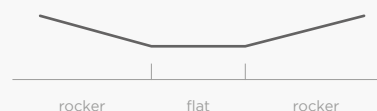

Looking for aggressive pop and an easy lock? Three-stage is the way to go. A shape which gives a competitive edge to your board.

CONTINUOUS

A shape with a more forgiving and relaxed nature. This rocker has a more consistent speed which also results in the fastest shape out there.

HYBRID

This rocker is the best of both worlds. It combines the speed of a continuous rocker with the aggressive pop of a three stage rocker.

WAKEBOARD LINE-UP

MADDOX JR

HYBRID CORE

THREE STAGE

For the kids who are sending it like adults! Based on our normal Maddox version, this board is perfect for kids who are more advanced and in need of a board that rips.

VERTEX

HIGH-PRESS CORE

CONTINUOUS

The Vertex is the little brother of its pro version and offers more forgiveness without compromising its performance. If you're a rider who wants to start stomping pro tricks but don't want to buy top-bill, the Vertex is your weapon of choice.

BREACH

HYBRID CORE

THREE STAGE

Reinforced with our backbone tech, the Breach is one of the more aggressive boards in the line-up. Made to ride hard and with an insane pop for the advanced rider.

MADDOX

HIGH-PRESS CORE

THREE STAGE

Pro rider level, made accessible! Designed for pro riders with deep channels for an unmatched grip but it has the capabilities to help every rider progress.

PROLIX

HIGH-PRESS CORE

HYBRID

A smooth ride for the intermediate boat rider combining a moderate traction with great control all while its rolled edges provide durability.

VANITY

HIGH-PRESS CORE

CONTINUOUS

The Vanity is the board for the intermediate boat rider who wants to progress, its molded fins make for traction and control while a narrow outline give it responsiveness and speed.

LOGO SERIES

HIGH-PRESS CORE

THREE STAGE

The logo is the board for making your first turns! It comes with molded fins and a removable center fin for great grip, while using its double concave for a smooth ride.

WAKESURFERS

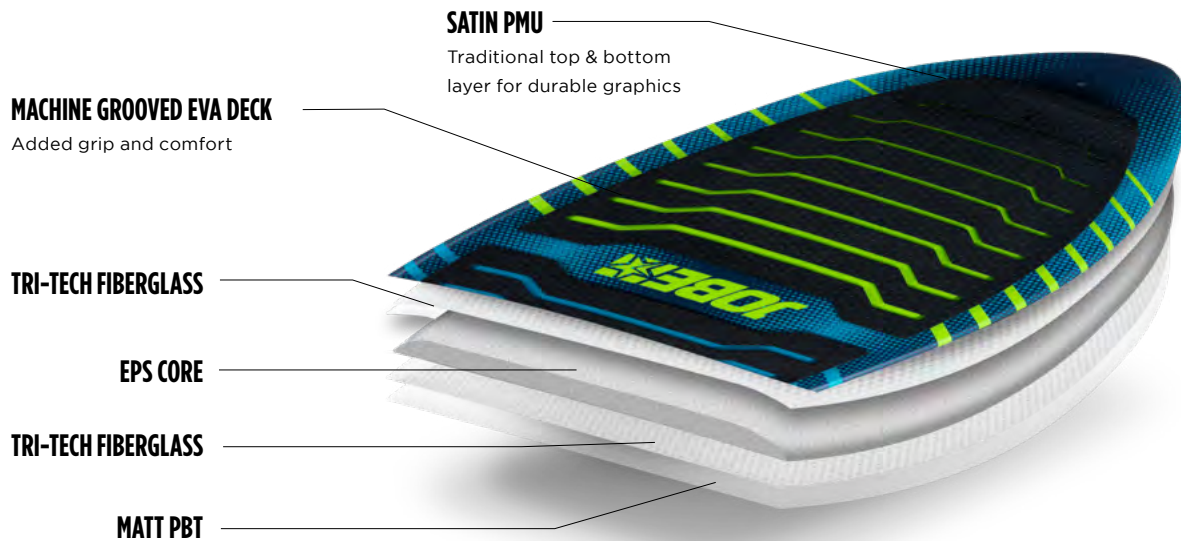

SUMMER SURF DAYS ARE WHAT IT'S ALL ABOUT!

Jobe wakesurfers are perfect for people who just want to cruise and ride that endless wave, whether you're a beginner or advanced: everyone loves a good surf!

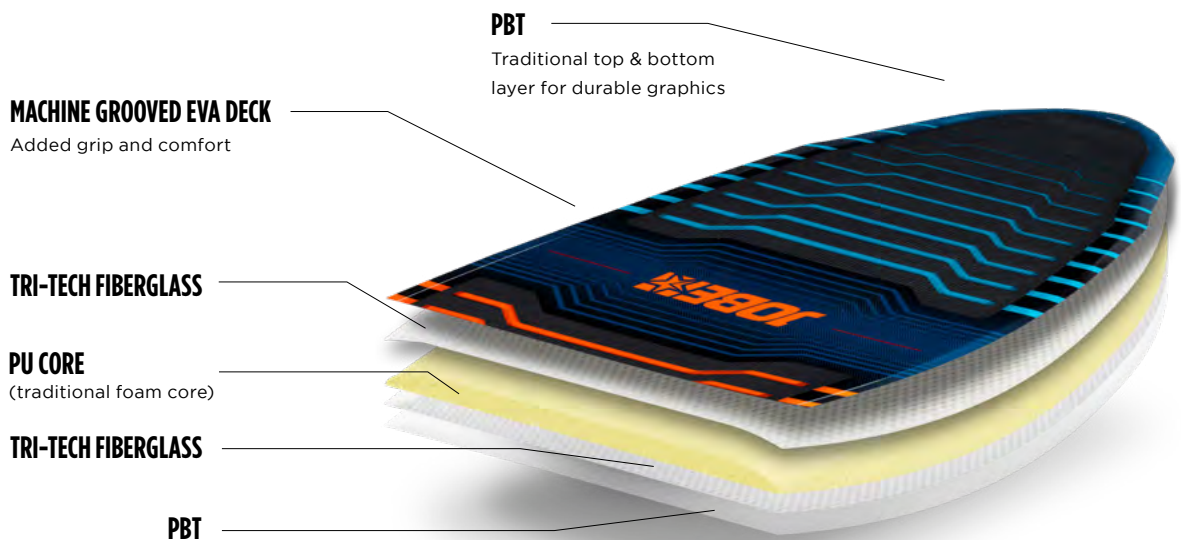

RAISE CORE

The Raise comes with our EPS lightweight core, which makes it the lightest board in our range. Not only is it lightweight but the Tri-tech Fiberglass adds response to the board, perfect for skim style! As if this wasn't enough both boards are made with 100% solar power.

LAZE & PACE CORE

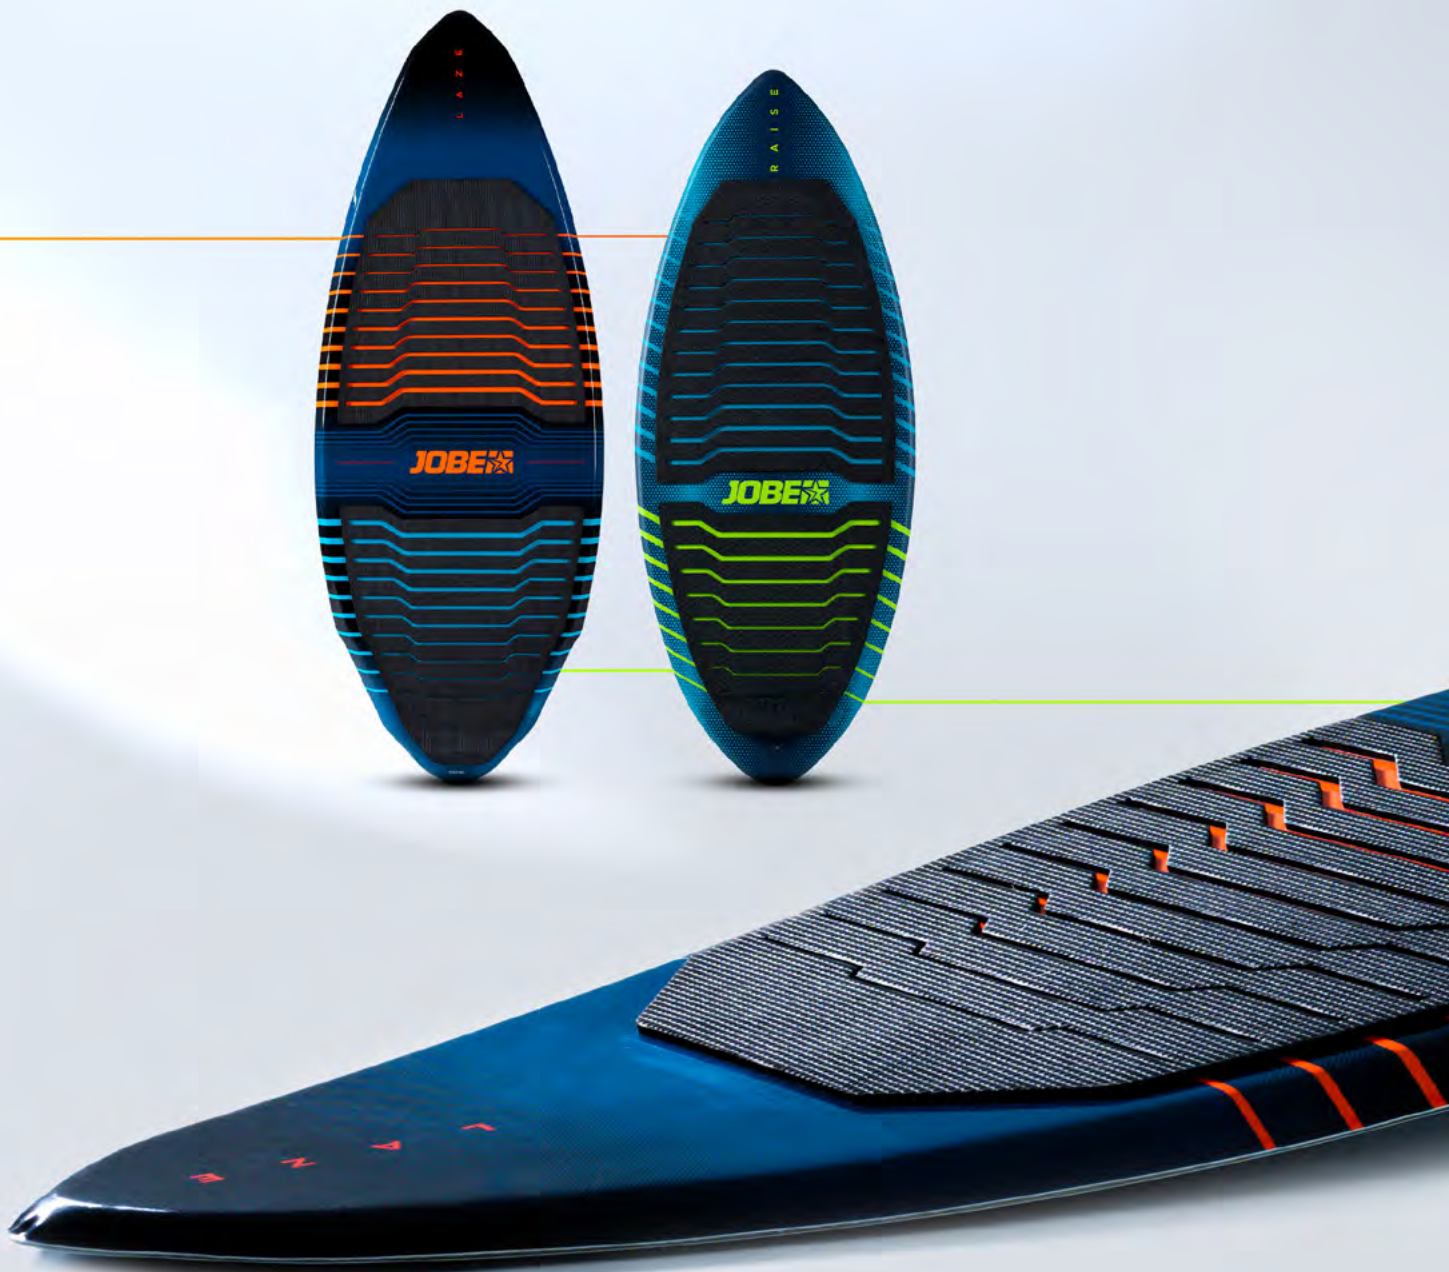

The Laze and the Pace both are High Press Fiberglass molded, this creates a board which has a tendency to give a fast response. This makes these board durable and perfect for a wakesurf style rider to add on top of that; both boards are made with a 100% solar power!

AESTHETICS MEETS FUNCTIONALITY

If you look closely at our wakesurfers, you'll find a die cut pattern in the deckpad, and we designed this for good reason!

If there's one thing you want with a wakesurfer, it's grip. Something to hold onto when you're behind the wake and crave a good carve! This specially designed die cut pattern doesn't just compliment the design of the board, it goes further than that and adds grip to the topsheet of the board as this die cut pattern gives your toes something to hold onto, creating an improved edge control and giving you that extra bit of response and control to get the most out of every session.

RADDIX

WAKESURFING MADE ACCESSIBLE.

X-STITCHING

Our industry leading X-stitching construction offers the lightest and stiffest board possible by crossing the nylon threads instead of a regular dropdown stitching.

HEAT BONDED TECHNOLOGY

30% more stiffness and 25% less weight! By heat molding our 2 PVC layers as one, you get the lightest, stiffest and most durable product possible.

FULL EVA DECKPAD

An EVA deckpad which covers the full board for plenty of grip! Add a kicktail to the back of the board and you are set.

4.7" EZ-LOCK FINS

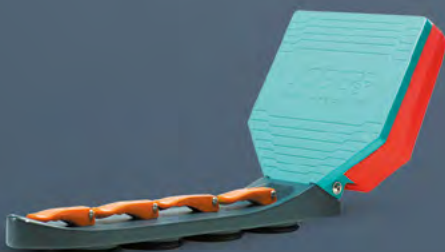

This board comes with our highly coveted EZ-Lock Fin system. It makes installing your fin setup fast and easy but most importantly; it secures the fin. Ensuring a tight fit for great response!

WAKE SHAPER

Our Push wakeshaper has been making waves (literally)! By attaching this wakeshaper to the side of your boat, you create the perfect wakesurf wave. This shaper pushes the water to the side, resulting in a better wave. But we didn't stop there: to make wakesurfing more accessible, we created the Raddix! Combine this inflatable wakesurfer with our Push Wakeshaper and you have a set which opens up a whole new world for wakesurfing.

1. ATTACH TO YOUR BOAT

2. THE ULTIMATE WAKESURF WAVE

APPAREL & FOOTWEAR

PACK IT UP, PACK IT IN.

We're excited to introduce our new series of waterproof bags. Crafted from high-quality, luxurious materials, these bags offer a variety of styles and options. Perfect for on-the-water adventures, shoreside activities, and simply any situation where a premium waterproof bag is essential.

210 cm

SIZE

59" 82.7"

FEATURES

Length: 59" | 150 cm • Blade angle: 9° • Blade surface: 84 in² • Comfortable fiberglass T-grip • Fiberglass shaft with excellent flex/weight ratio • Length: 13.6" | 34,5 cm • Plastic blade • Weight: 780 g | 1,71 lbs • Weight: 900 g | 1,98 lbs Length: 82.7" | 210 cm • Blade width: 8" | 203 mm • Blade surface: 91 in² • Blade angle: 9° • Plastic blade • Fiberglass shaft with excellent flex/weight ratio • Comfortable fiberglass T-grip • Weight: 780 g | 1,71 lbs • Weight: 1 kg | 2,2 lbs

HOW TO MEASURE

1. CHEST

Place the tape under your arms. Measure the chest at the widest part.

2. WAIST

Measure around the narrowest part of your waist.

3. HIP

Measure around the widest part of your hips.

4. LENGTH

Measure from head to toe.

5. BODY LENGTH

Measure from the shoulder down.

BRABUS × JOBE

Meet one of the boldest collaborations in the history of watersports. Our passion to inspire friends and families and create dashing memories comes together perfectly with the adventurous and luxurious image of BRABUS. Our collections have turned out to be an instant hit which makes us hungry for more.

AXOPAR

X

JOBET

A collaboration that lets our company values flourish in the most beautiful way possible. The adventurous spirit and innovative drive of Axopar match perfectly with Jobe's identity. Together with Axopar we have created a unique watersports collection which even consisted a boat. The Axopar X Jobe 'Revolve XXII' boat is the absolute showpiece result of our cooperation.

Jeep × **JOBE** 

The collaboration between Jobe and Jeep is a natural fit, merging Jobe's expertise in watersports with Jeep's legacy of rugged adventure. Both brands are synonymous with quality and innovation, creating exceptional experiences for adventurers at heart. Together, they inspire adventurers to push boundaries, whether on water or land.

MORE THAN 50 YEARS OF MAKING JOB MOMENTS

Since our humble beginnings in 1974, we have evolved into one of the leading brands in the global watersports community. Our success over the past 50 years is a testament to your endless support and loyalty.

As we celebrate this milestone, we look forward to creating many more unforgettable #Jobemoments together in the years to come!

GETS YOU ON THE WATER
